OBJECTIVE

Motivated Web Developer with knowledge of Laravel and MERN Stack Technologies seeking an entry-level position to build user-friendly and responsive websites while enhancing my development skills.

EDUCATION

Diploma of Web Development , PNY Training Institute	June 2025 -December 2025
Intermediate , Punjab College	August 2023 -June 2025
Bachelor of Science , Quaid-e-Azam University	September 2025 -Ongoing

SKILLS

Frontend Skills	HTML, CSS, JAVASCRIPT, BOOTSTRAP, REACT.JS, TAILWIND,
Backend Skills	NODE.JS, EXPRESS.JS, PHP, LARAVEL
Database	MySQL, MongoDB

PROJECTS

Youtube clone Developed core video-sharing features including user authentication (Sign-up and Sign-in), video uploads, and commenting system Implemented responsive UI and organized components for scalable architecture (Made on Laravel)

Arsha Bootstrap Recreated the Arsha website using Bootstrap with a fully responsive layout Improved frontend design skills, page structure, and mobile-first development practices

Small Projects. Simplex website Half (HTML, CSS), Chrome Dino Game (Javascript), Birthday-Reminder (React), API'S fetching (React), To-Do List(React), Lorem-Generator(React), Color-Generator(React)

Pixela Web and App Developed a responsive, Instagram-style platform using MongoDB, Express, React, and Node.js. Built a RESTful API for post creation and data management, featuring a mobile-first UI. Currently integrating JWT authentication and interactive social features like profiles and an explore feed

LMS Architecting a scalable Learning Management System using Laravel to streamline course delivery and student enrollment. Currently developing a robust backend to handle educational content and automated attendance tracking, while designing an intuitive administrative dashboard and responsive learner interface.

GMS Developed a specialized Gym management platform using Laravel to digitize fitness center operations. Engineered core functionality for member registration, subscription tracking, and workout scheduling. Focused on creating a streamlined administrative dashboard to manage memberships and payment statuses, ensuring an efficient, data-driven approach to gym administration.

EXTRA-CURRICULAR ACTIVITIES

- Interests: Fitness and Strength Training
- Sample bullet point.

LEADERSHIP

- Led development roles in class projects, coordinating tasks for frontend and backend
- Assisted teammates in debugging and implementing features such as authentication, video upload, and commenting systems
- Encouraged peers to adopt best practices in coding, responsive design, and component reusability
